929 House Parking Garage - Cambridge, MA

OWNER: Equity Residential Properties

ENGINEER: Desman Associates

DESCRIPTION:

CSI was awarded the contract to replace the leaking expansion joint that runs across the roof of the 929 House parking garage.

This leakage has been problematic over the years resulting in damage to parked cars and the various concrete support elements beneath and adjacent to the joint opening.

The scope of work entailed demolition of the old joint and nosings, removal of the waterproofing 12" either side of the opening followed by the installation of the Emseal Migutan joint. Though expensive, the unique feature of the Migutan joint assembly is the side flap feature which enables a full tie in with the existing weatherproofing.

Upon successful installation and waterproofing the area was subject to a water test prior the asphalt paving being placed either side of the joint.

Since 1996, **Contracting Specialists Incorporated** has steadily emerged as a leader in specialty construction, providing clients with proven and innovative solutions for concrete restoration, masonry restoration and waterproofing. Visit www.contractingspecialists.com
