

CONTRACTING SPECIALISTS  
INCORPORATED

# PROJECT PROFILE

[www.contractingspecialists.com](http://www.contractingspecialists.com)

## Pickering Square, Bangor ME

### DESCRIPTION:

CSI restored portions of the ground and 3rd levels of this 5-level garage:

- > Installed concrete shear walls
- > Pilasters
- > Applied joint sealant traffic membrane
- > Performed concrete crack repairs
- > Replaced existing connector plates at Double-T connections with installation of zinc anodes:

### Pictured at Right:

CSI devised an innovative method of connecting anodes without further damaging the structure in order to expose rebar and still confirm the connectivity of the anode to the steel.

**Newly prepared Double-T Connection with zinc anodes ready for installation**

Since 1996, **Contracting Specialists Incorporated** has steadily emerged as a leader in specialty construction, providing clients with proven and innovative solutions for concrete restoration, masonry restoration and waterproofing.
