8 Plympton St., Harvard University, Cambridge MA Repointing of Mortar Joints & Masonry Reconstruction

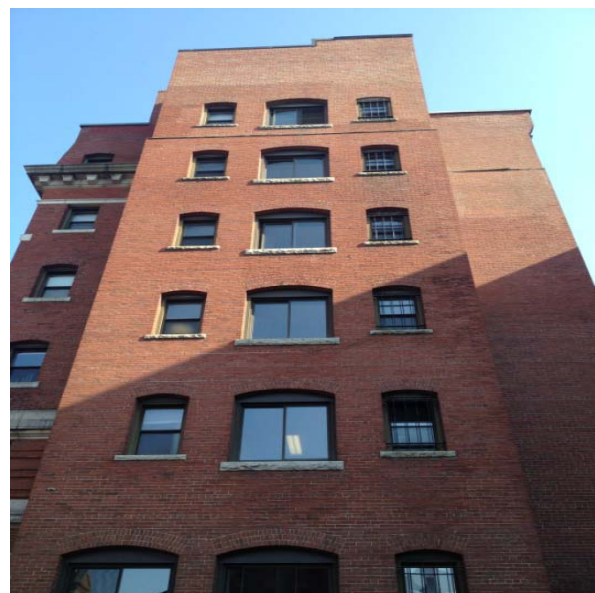

OWNER: Harvard University

ENGINEER: Gale Associates

Located at Harvard University, 8 Plympton St. serves as student accommodation and as the home for the renowned Harvard Book Store.

CSI was awarded the contract to restore the deteriorated masonry at the South façade of the building and to install new copper flashing and detailing to help preserve the long term waterproof integrity of the building. The historical nature of the building required extensive mortar sampling and matching to preserve the original intent of the design, and great care was taken to preserve and protect the unique architectural features of the façade.

CSI completed the project on budget and schedule and with minimal impact to the residents and businesses of the building and their operations.

Since 1996, **Contracting Specialists Incorporated** has steadily emerged as a leader in specialty construction, providing clients with proven and innovative solutions for concrete restoration, masonry restoration and waterproofing. Visit www.contractingspecialists.com
