Prudential Center Parking Garage, Boston MA Multiple Services Performed on 4 Entrance Ramps

OWNER: Boston Properties
ENGINEER: Capobianco & Associates

DESCRIPTION:

CSI was awarded the contract to perform miscellaneous concrete repairs and coating removal/replacement at four entrance ramps to the Prudential Center Parking Garage in Boston, MA. Work also included replacement of an expansion joint system at one location.

Working closely with the owner, CSI developed a schedule that worked to minimize downtime for each ramp of the busy garage while work was being completed.

A key factor that enabled CSI to perform the work in such a timely manner is that all work was performed in-house, without the need for any subcontractors. Using the specialty scraping equipment that CSI has invested in, the CSI Team removed the old deteriorated coating system, and repairs were made as necessary to the underlying concrete substrate. Lastly, the new skid resistant epoxy coating system was installed.
