Tower 41 Condominium - Miami, FL Parking Garage & Recreational Deck Renovation

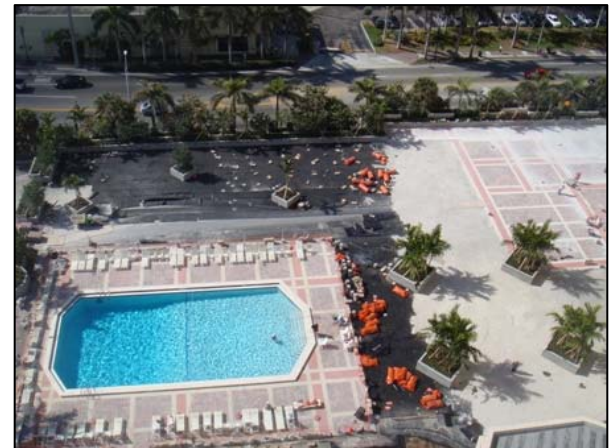

OWNER: Tower 41 Condominium Association
ENGINEER: S.P.E.C. Engineering

DESCRIPTION:

CSI provided a complete recreational deck renovation, including waterproofing and concrete repairs of the entire deck and garage levels at the Tower 41 Condominium.

The CSI team performed structural repairs and waterproofing, as well as installation of planters, lighting, irrigation, drainage, landscape, shade structures and paver & coping finishes, to completely renovate the 50,000+ SF recreational deck.

CSI also stabilized the foundation in order to create a Grand Staircase, which served to connect the top and bottom levels of the recreational decks.

The CSI team worked closely with all subcontractors to achieve successful results: A completely renovated, water-tight recreational deck that features every amenity that the client requested.

The CSI team's success throughout this project also earned them additional work that was not originally scoped for this facility.

Since 1996, Contracting Specialists Incorporated has steadily emerged as a leader in specialty construction, providing clients with proven and innovative solutions for concrete restoration, masonry restoration and waterproofing. Visit www.contractingspecialists.com
