## Tremont St. Garage, Boston MA Parking Garage Restoration and Coating

**OWNER:** Tufts New England Medical Center

**ENGINEER:** Desman Assoc.

CSI was awarded a \$1million contract to complete extensive concrete repairs throughout multiple levels of this 8 floor garage building, part of the Tufts New England Medical Center. Repairs were completed at deteriorated concrete locations at the garage deck, columns and overhead beams. The deteriorated garage pan stair systems were also extensively rehabilitated. Post tension cable repairs were also completed as part of the project and a heavy duty traffic coating system was applied at the roof deck of the garage and at the critical heavy traffic areas at the ramps and turning circles.

A complex and involved traffic flow and phasing plan was implemented in order to reduce the impact on the garage and its customers. CSI completed the project ahead of schedule and on budget.

Since 1996, Contracting Specialists Incorporated has steadily emerged as a leader in specialty construction, providing clients with proven and innovative solutions for concrete restoration, masonry restoration and waterproofing.
