Department of Veterans Affairs VA Boston Healthcare Systems Brockton, MA Division Buildings 3 & 23 Exterior Repairs

OWNER: Department of Veterans Affairs

ENGINEER: Dewberry-Goodkind, Inc

The two buildings are located on the Department of Veteran Affairs campus in Brockton Massachusetts and provide a wide variety of health care services to veterans. **CSI** collaborated with the hospital's personnel and completed the project ahead of schedule without disturbing the day-to-day hospital operations.

The **CSI** team performed large scale brick masonry repairs throughout both buildings to deteriorated areas, areas damaged from natural movement of the structure, and to areas allowing moisture infiltration into the hospital. The project included large areas of brick and limestone sill replacement on the building's façade, new steel window lintels and relieving angles with new through-wall flashing systems, and the installation and replacement of vertical control joints.

Since 1996, **Contracting Specialists Incorporated** has steadily emerged as a leader in specialty construction, providing clients with proven and innovative solutions for concrete restoration, masonry restoration and waterproofing. Visit www.contractingspecialists.com
